

SILPASTA® MOTOCROSS-ENDURO

CHARACTERISTICS:

SILPASTA® MOTOCROSS-ENDURO is a silicone paste for mounting of mousses, tublisses, tireballs and and thick inner tubes used in hard enduro at low pressures.

The paste provides:

- tire protection against damage and corrosion,
- reduction of friction between mousse (tireballs) and the tire,
- reduction of rolling resistance and heating of the mousse (tireballs).

SILPASTA® MOTOCROSS- ENDURO also prevents the mousses / tublisses from sticking to the tire and extends the durability of the mousse (tireballs), which makes it easier to put on and remove the tire.

TECHNICAL DATA:

No.	PARAMETERS	SILPASTA® MOTOCROSS- ENDURO
1.	Density at 20°C , g/cm ³	1,02 ÷ 1,04
2.	Penetration, mm/10	From 180 to 240
3.	Colour	White, slightly opalescent
4.	Odour	odorless
5.	pH of water extract	4 ÷ 6
6.	Working temp., °C	from -40 to +200

APPLICATION METHOD:

Spread the adequate amount of paste on the entire circumference of the tire bead and on the edge of the rim with a brush or sponge. Avoid excessive lubrication. Use organic solvent based preparations to remove the paste.

EFFICIENTY:

1 kg of paste is enough for several applications.

STORAGE:

The paste should be stored in its original, tightly closed packaging at a temperature from -40 to +50 °C.

WARRANTY PERIOD:

12 months from production date.

Packaging:

PE 1 kg
